2012

Summer School on Applied Analysis

Time

Monday,
24th of September 2012, 9:15 am
till
Friday,
28th of September 2012, 1:00 pm

Location

Chemnitz University of
Technology,
Department of Mathematics,
Reichenhainer Str. 39/41,
Room 638

Accommodation

Participants must take care
of accommodation themselves.
A list of hotels in the area is
provided by Chemnitz Tourism.

Local organisation

is done by Albrecht Böttcher,
Peter Junghanns, Daniel Potts
and Karla Rost.

Lectures

There will be five general lectures given by
the following speakers.

Maurinus A. Kaashoek
(Vrije Universiteit Amsterdam, The Netherlands)
**Szegö-Krein orthogonal polynomials
and the band method**

Jürgen Prestin
(University of Lübeck)
Periodic Multiresolution

Holger Rauhut
(University of Bonn)
Introduction to Compressive Sensing

Maria Grazia Russo
(University of Basilicata, Potenza, Italy)
**Lagrange interpolation for functions
of bounded variation**

Alexander Volberg
(Michigan State University, East Lansing, USA)
Topics in Singular integrals

TECHNISCHE UNIVERSITÄT CHEMNITZ
