

Hans Viktor Alexis Fährmann, a student of business sciences at the "TU Chemnitz" in Germany has recently visited South Valley University (SVU) for three weeks. Under the supervision of Prof. Dr. Ahmed Safwat, Dept. of Mathematics, and the friendly agreement of Prof. Dr. Abbas M. Mansour, SVU president, he took part at the collegiate and cultural life of our university. He held some good visited lectures at different faculties and told about Germany, with focus on interesting German facts, his representative role in the charity care program "Education4Kenya", a combination of the Latin and Arabic writing fonts and his affection for the friendly relations between Germany and Egypt.

"First I want to thank a lot to the SVU, Prof. Dr. Abbas, Prof. Dr. Ahmed Safwat and the multitude of adorable people I had the pleasure to meet during my visit. – Just to name a few of my plenty great impressions: I visited Prof. Dr. Ismail, Dean of Vet.-Med., and I was attired in his engagement for people, animals and the German language. I promised to help him with the "Deutschlehrzentrum" (abbr.: DLZ, German teaching center) and I also want to thank for the warm receipt Prof. Dr. Saad and his colleagues always gave to me in the Dept. of Mathematics. I also like to remember the concert eve I spent with Prof. Dr. Khodary, SVU vice, at the beginning of my stay or my visits to the programming team and Prof. Dr. Rushdy or my meeting with Prof. Dr. Abu al Fadl Badran, Dean of Arts. As already said these are just a few contacts I was so lucky to make. I met such a lot of interesting people that I am not able to count anymore. And I was pleased about the big general interest to everything I showed and of course, also to name, "Education4Kenya". It was really great for me to experience this all, get to know better your culture and traditions. All these positive memories I will take with me to Germany, e.g. publish them, and tell everyone. Anyway I will keep in contact and be glad to visit you again sometime. Please feel free to contact me under my e-mail address victor.fahrmann@gmx.de anytime. And take a look on the photos and documentary movies I made for you. – I came alone and left with hundreds of new friends. Thank you!"

- H.V.A. Fährmann -
